My dearest Mother,

I am very well, haven't had much time to write lately. The country is very, very beautiful. Everything so green and flowers are every where. We have had a chance lately to be killed where the french could cook for us. They have it on the world when it comes to good cooks. And they are by far the finest comrades and friends because they are polite and also sincere with it. I can't imagine the people of our country treating foreigners as nice as we are treated. Much love dear Mother to you and all the family. Your devoted son
